- Simple date/time specific playback with smart file listing.

1. Criminal Deterrent:

Studies have shown that CCTV systems act as a good crime prevention tool. Criminals are much less likely to target monitored premises that use security cameras.

2. Increased Security:

Know who's in and around your property by providing better security for your family and staff members.

3. Loss Prevention:

Many companies rely on the use of CCTV to reduce their cash register theft and product shrinkage.

4. Remote Internet Monitoring:

Keep watch over your home or business by using your onsite internet connection. There is no need to drive to your premises for all those false alarms. Alarm verification can now be done on most 3G mobile phones.

5. Records Evidence:

CCTV can be a crucial factor when solving crimes, reviewing safety procedures or identifying theft or fraud.

6. OH&S Issues:

By using CCTV to monitor dangerous and risky situations many accidents can be avoided or reduced before they even happen.

7. Fixed Monthly payments:

Fully tax deductible FLEXI-RENT monthly payment options are available over 24, 36, or 48 months. **Please Note: Some conditions may apply.**
